Licensee	High Mowing Organic Seeds, Inc.

THE PRODUCT

Cucumber ‘Green Finger’

‘Green Finger’ is a slicing cucumber with fruit that average 8-10 inches with a thin skin, exceptional flavor, and a small seed cavity. It has more durability than most varieties of this type and stores just as well as American slicers without needing to be wrapped.

THE TECHNOLOGY

‘Marketmore 97’ is also one of the most disease resistant varieties on the market, due to its resistance to cucumber mosaic virus, powdery mildew, downy mildew, and scab. It matures in fifty-five days.

Inventors	Margaret Jahn & George Moriarty
Licensees	Emerald Seed Company Magnum Seeds, Inc. Territorial Seed Company

THE PRODUCT

Cucumber ‘Marketmore 97’

‘Marketmore 97’ is a bitter-free slicing cucumber. ‘Marketmore 97’ is a northern cultivar that can be 9-11 inches straight.
