

THE TECHNOLOGY

'King Crimson' shows intermediate resistance to cucumber mosaic virus. This pepper was jointly developed by Cornell University and High Mowing Organic Seeds, Inc.

Inventors	Michael Glos, Margaret Jahn & George Moriarty
Licensee	High Mowing Organic Seeds, Inc.

THE PRODUCT

Pepper 'King Crimson'

'King Crimson' is an early to mature pepper, that produces uniformly medium-sized, thick walled, blocky fruit with four lobes. The green peppers mature in sixty days and the red peppers mature in seventy days.
