

THE TECHNOLOGY

The ‘Royalton’ cherry is sweet with exceptionally large and high quality fruit. Known for its excellent taste and deep purple skin, ‘Royalton’ is highly rated. It is ideal for stem-on sales where it yields premiums in the fresh market. A boon to growers, the upright and vigorous tree yields crack tolerant, firm fruit.

THE PRODUCT

Cherry ‘Royalton’

‘Royalton’ is a dark purple-red cherry. It has excellent flavor and is crack-resistant (even after heavy spring rains). ‘Royalton’ is a standout at cherry blossom time and when the fruit ripens in mid-June. ‘Royalton’ can be used as a pollinator for other sweet cherries.
